

NEW IMMUNIZATION REQUIREMENT FOR 12TH GRADE STUDENTS - 2016-2017

The Ohio Department of Health is requiring all students entering 12th grade during the 2016/2017 school year be vaccinated against **meningococcal** (serogroups A, C, W and Y) disease. The Ohio Revised Code (ORC) 3313.67 and 3313.671 indicate schools are responsible for ensuring that students who enroll in school have immunizations required by the Ohio Department of Health. If your child received a meningococcal vaccine before their 16th birthday, they are required to receive a booster prior to entering 12th grade. The statute also states that schools are to keep records of immunizations and students may be withheld from school if proof of the vaccination is not received.

Please complete and return this form or a vaccine record, to the Eastwood High School office. Attn: Dannelle Sutton RN, School Nurse **on or before** the start of the 2016/2017 school year.

Students Name _____

Date of Birth _____

Date of **Meningococcal Meningitis (MCV4)**
